# Technician's access

Qualification Program, All Courses tab and how to access CVCOL

To access QSOL Service Training
- quickserve.cummins.com
- click on Training
- and Service Training
- once you login to QSOL Service Training
- Home page – default page
  - you will see Welcome to ProMotion -- your name & Promo id
  - 3 different color qualification status tabs, with filtering training data. Products/qualification programs that your service location certify to work on.
- **By click on your <u>qsol user name or wwid</u>, you will see ALL your training data**

To see ALL of your training data, please click on the link of your **qsol user name or wwid**
You will see **All Programs**, **All Courses** tabs
Click on All Program tab, it will list all the training programs in the service training database
- remember to click on **All** to show all programs, it will tell you how many programs on the bottom
- by using Search, you can type in either program # or name, to find the program
- when find the program, click on Program #, it will show all the status courses status with color
- click on

Program Guide Detail
-- show your courses status, can sort by each field, either by color, by % or course id …
-- again, only show 10 entries by default, so make sure it show it as **ALL**
-- has option to Save as CSV, Print
-- click on course's **Online** link will bring you to that course at CVCOL, so can start Online course training
-- Download Program Guide for cd, currently for CVC Online, you don't need this, this is only for tech still using cds
